

Environment

Environmental responsibility is one of the key principles of Instalaciones ELEMSA. In this document the company's environmental goals and guidelines are defined.

Objectives

Minimize our activities impact on the environment and any possible threats towards Nature. Constantly work to avoid any environmental incident.

Guidelines

In order to achieve our goal, we've established the following guidelines:

- To follow any suitable environmental law and our own standards.
- To establish clear and significant objectives for all our teams' performance in environmental matters, emphasizing on key factors.
- To measure our performance and communicate any progress, regularly and openly.
- Engage managers, supervisors and employees as equally responsible in the environmental protection.
- Seek to become a Green Office in order to minimize the carbon print through pollutant emissions reduction, a rational use of natural resources and energy. To promote and improve the use of the 3 R's (Recycle, Reduce, Reuse).
- To promote awareness among employees so they apply this guidelines in their daily activities.
- To work together with our clients, partners and contractors to build an environmental administration common to each project.
- To continually improve our environmental performance.
